

Desco TFE Dry Pak

Synthetic Packing for Valve Stems, Rods and Shafts

Description:

Desco TFE Dry Pak is a packing material for valves and miscellaneous applications. This 100% TFE-fluorocarbon packing has low friction and non-adhesive qualities.

TFE Dry Pak is a permanent packing which can be added to and does not need to be replaced.

It is resistant to most chemicals across the entire pH range.

Typical Characteristics:

Color	off-white
Temperature range	-70 ^o F to +450 ^o F (-57 ^o C to +232 ^o C)
Particle size	30 mesh average
Bulk Density	500-700 g/L

Packaging Information:

Desco TFE Dry Pak

Item No.	Unit Size	Quantity	Net Wt.	Ship Wt.
0102-12	1 pt.	12 ctn.		14 lbs.
0103-12	1 gal.	1 each	5 lbs.	6 lbs.

Caution:

Desco TFE Dry Pak has a low order of toxicity. However, it does contain TFE-fluorocarbon material and exposure to temperatures greater than +500^oF (+260^oC) will result in toxic gas being generated.
